

of low income patients with special needs." Moreover, since inmates in the custody of the DOC or the DCYF, have a source of third party coverage, because of the legal obligation of those entities to furnish food, housing and medical care to wards of the State, DSH payments for those services would be contrary to the applicable hospital-specific limits. HCFA contends that these inmates are neither eligible for Medicaid nor are they uninsured.

Section 1923 of the Act establishes Federal requirements for DSH payments to qualifying hospitals. DSH payments may be reasonably related to the costs, volume or proportion of services provided to patients eligible for medical assistance under a State plan or to low-income patients. Unlike other Medicaid payments, DSH payments are not payments for specific services, but are made to recognize that DSH facilities "serve a disproportionate share of low income patients with special needs." The payments described in this State plan are payments for specific services to specified inmates in the custody of the DOC or DCYF, rather than payments available for the overall costs of serving a disproportionate share of low-income patients. It is important to note that, while States may use DSH payments generally to assist facilities that have high levels of uncompensated care, the DSH provisions do not authorize payments for specific services to non-Medicaid eligible individuals.

Furthermore, under section 1923(g) of the Act there is a hospital-specific limit on DSH payments under Medicaid. Such payments cannot exceed the hospital's uncompensated costs of furnishing hospital services to individuals who either are eligible for medical assistance under the State plan or have no health insurance or other source of third party coverage for services provided during the year. Individuals in the custody of the DOC and the DCYF are wards of the State. As such, the State is obligated to cover their basic economic needs (food, housing, and medical care) because failure to do so would be in violation of the Eighth amendment of the Constitution. Because State obligations outside of the Medicaid program provide these individuals a source of third party coverage, the individuals are neither eligible for medical assistance nor are they uninsured. Therefore, the State cannot make DSH payments to cover the costs of their care.

Therefore, based on the above, and after consultation with the Secretary as required under 42 CFR 430.15(c)(2), HCFA disapproved Rhode Island SPA 00-003.

The notice to Rhode Island announcing an administrative hearing to reconsider the disapproval of its SPA reads as follows:

Christine C. Ferguson
Director
Department of Human Services
600 New London Avenue
Cranston, Rhode Island 02920

Dear Ms. Ferguson: I am responding to your request for reconsideration of the decision to disapprove Rhode Island State Plan Amendment (SPA) 00-003.

The issue in Rhode Island SPA 00-003 is whether the payments at issue are consistent with the statutory requirements for disproportionate share hospital (DSH) payments at section 1923 of the Social Security Act (the Act). The payments are for specific services furnished to individuals not eligible for Medicaid, and are not generally available for the costs to "serve a disproportionate share of low income patients with special needs." Moreover, since inmates in the custody of the Department of Corrections (DOC) or the Department of Children and Youth (DCYF), have a source of third party coverage, because of the legal obligation of those entities to furnish food, housing and medical care to wards of the State, DSH payments for those services would be contrary to the applicable hospital-specific limits. HCFA contends that these inmates are neither eligible for Medicaid nor are they uninsured.
